

## Item description/product images

## Description

**Material:**

Steel.

**Version:**

Hardened (52+2 HRC) and black oxidised.

**Note:**

Talon grips are meant for installing into vice jaw plates. A slot with tapped hole is sufficient for mounting. The sharp edges on the talons bite into the workpiece and prevent lateral and horizontal movement.

- Positive clamping for high cutting speeds.
- Low clamping height of 1.5 mm (saves material costs).
- The contour of the talons produces a slight pull-down effect.

A matching stop is available as an accessory.

**Drawing reference:**

- 1) workpiece
- 2) clamping jaw
