Surface preparation

Description

Note:

Safety data sheets (see downloads) can be found officially and in various languages on the internet under the search term: 'Henkel Documents'.

General:

Cleaning increases the quality of sealed and bonded joints.

LOCTITE super clean, 97990-7063...

CFC free solvent based cleaner, used to clean and degrease surfaces. Ideal for preparing surfaces before applying adhesives or sealants. Quick, residue-free drying. LOCTITE super clean, 97990-7070400

CFC free solvent based cleaner, used especially for cleaning, degreasing and preparing plastic parts before applying adhesives. Can be used as a spray or immersion bath by room temperature or by higher temperatures. Removes most greases, oils, lubricating liquids, metal swarf and fine particles from plastic parts without the danger of stress cracking. Compatible with metals and most plastics and elastomers.

LOCTITE adhesive and sealant remover, 97990-7080300

This product is used to help remove hardened chemical flange sealants in that it softens the sealant on the flange and so prevents damage caused by forcible scraping. After application a foaming film is formed that prevents the product running off the surface being treated. This allows it to work on the flange sealant for the required time. Typical application is the removal of all liquid flange sealants from metal flanges.

Overview of items

Order No.	Container	Intern. Ident. No.
97990-7063150	150 ml aerosol	7063
97990-7063400	400 ml vaporizer	7063
97990-7070400	400 ml vaporizer	7070
97990-7080300	400 ml aerosol	7200
