

## Item description/product images

## Description

**Material:**

Housing: steel.

Grease gun head: die-cast zinc.

**Note:**

DIN 1283 based one-hand grease gun for 400 g grease cartridges or 500 cm<sup>3</sup> bulk grease. The pump piston is a precision fit in the cylinder. This prevents grease from seeping out. Quick venting by half a turn of the grease gun hose.

Changeover from high volume grease delivery to high pressure with a simple adjustment on the grip.

Supplied with straight nozzle tube and mouthpiece.
