

Item description/product images

Description

Material:

Steel.

Version:

Trivalent blue passivated.

Catch plate Form B (weldable), bright.

Note:

Heavy-duty forged latches for high tensile loads. Primarily used on utility vehicles, agricultural and construction machinery. A ratchet prevents unintentional opening when closed.

To compensate for tolerances or to create enough tension the bail can be adjusted using the spindle D1.

Order required catch plate version separately.

The retaining force F1 applies to the latch, not the catch plate.
