Description

Note:

Standard magnetic envelopes do not provide sufficient hold by severe vibration or poor surface area i.e. wire crates. These magnetic envelopes have two strong neodymium magnets which simplify handling in such a way that an envelope only has to be thrown at the wire box. The magnets sealed into the envelopes seek their own surface and ensure a secure hold.

Overview of items

Order No.	length x height	for sheet size
96471-217155	217 x 155	DIN A5
96471-220300	220 x 300	DIN A4
