

Item description/product images

Description

Material:

Extruded section, aluminium EN AW-6060.

Version:

Hard anodised aluminium, 50 µm. Hardness 500 HV.

Note:

The aluminium guide rail has good thermal conductivity and importantly heats only at continuously very high speeds.

** lengths L2 = 20 mm

* and L = 500 mm included

L2 and L only available in full mm.
