

Item description/product images

Description

Material:

Stainless steel A2.

Version:

Bright.

Note:

These stainless steel mounting brackets are used to mount the LED machine lamps 86025.

They permit the LED lamps to be infinitely rotated through 110° and secured.

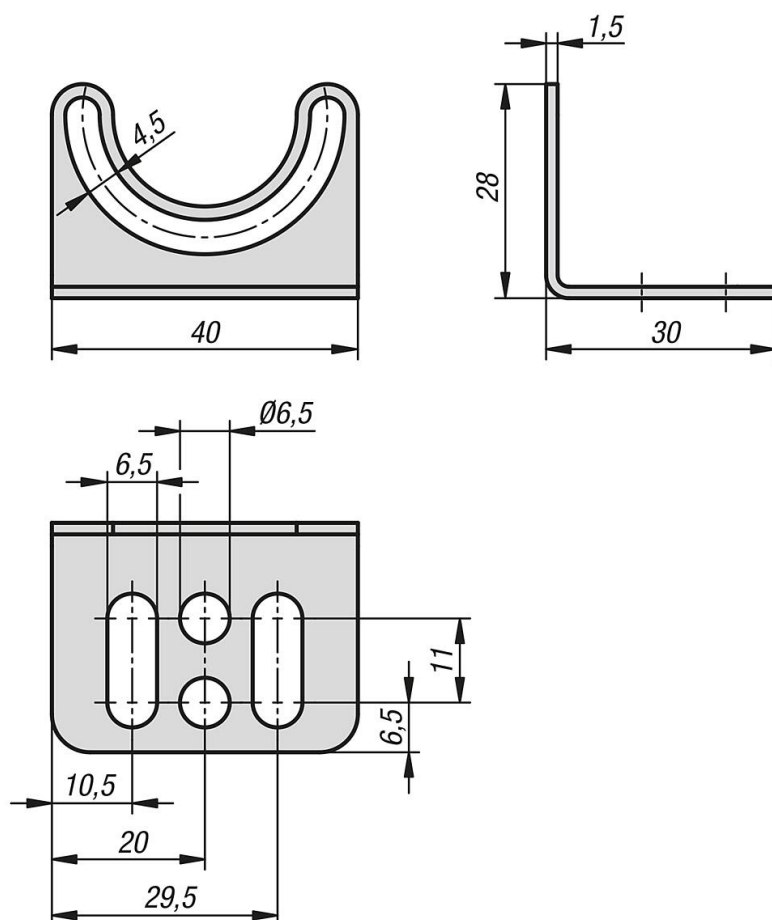

The two brackets are screwed into the tapped holes on the end caps of the lamp using the M4x6 screws supplied.

Supplied with:

2x mounting brackets.

4x DIN EN ISO 7380 M4x6 screws with flattened pan heads.
