

Item description/product images

Description

Material:
Plastic POM.

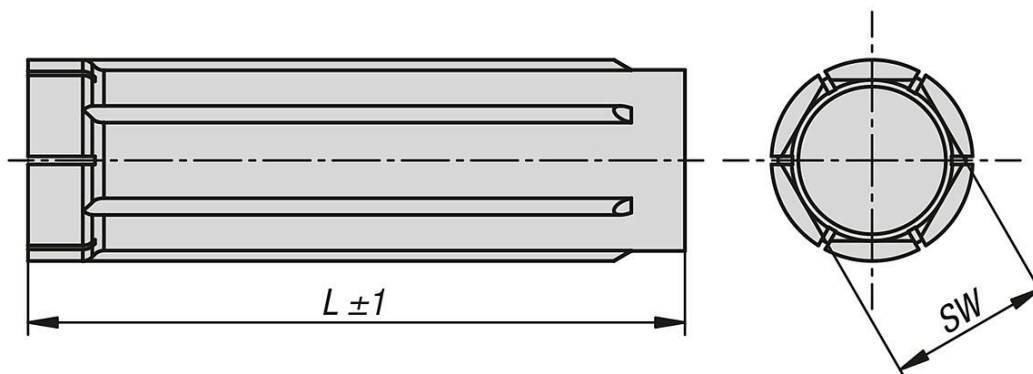

Note:
Assembly key with hexagon. Is suitable for mounting the fastening nut on control and signalling devices. It has an integrated torque limiter.

Certificates / Standards met:
81040-11-18: CCC, CE.
81040-11-24: CCC, CE, UKCA.

Temperature range:
Storage temperature: -50 °C to +85 °C.
Operating temperature: 20 °C ±5 °C.

Advantages:
An assembly key is highly recommended when larger quantities of control and signalling devices are to be installed, as it makes installation much easier and quicker.
