

Item description/product images

**Description****Material:**

Steel version:

Foot high carbon steel.

Ball element free-cutting steel.

Stainless steel version:

Foot and ball element stainless steel.

Damper plate PUR elastomer (Sylomer V12).

Version:

Steel version:

Foot black oxidised.

Ball element case-hardened and black oxidised.

Stainless steel version:

Bright.

Anti-slip damper plate grey, glued in.

Temp. range -30 °C to +70 °C.

Note:

The load rating given in the table is a recommendation of the permanent static load to which the damping element should be used.

This static load corresponds to a surface pressure of 0.4 N/mm² at which the material achieves its optimum absorption properties. It is taken into account that under dynamic loading an additional load of up to 0.6 N/mm² may occur.

The damper plate absorbs vibrations and prevents the swivel foot slipping.

For swivel feet without vibration absorption see article No. 07144.

Drawing reference:

1) damper plate
